How does being a member benefit your business and this community?

Our prosperity depends upon the development of a healthy and happy community. It doesn't matter if you are a manufacturing or construction company that does most of your business out of town. You still live, work and buy your goods and services here in this community. Your children and your employee's children go to school here, have access to excellent health care, attend church and other activities and have a comfortable life here. Keeping this community healthy and viable is in your best interests as a business owner, an employer and a citizen. It's that simple.

We invite anyone who I interested to join with us. We can use everyone's time and talents but if you don't have time to do that, we understand. We also need monetary support to keep providing the services we make available to our community and to be able to keep our office open as a business advocate.

Please give our office a call at 507-726-6088 if you would like to learn more about becoming a Chamber member.
